Jeremy Seckinger

Software Engineer | Full Stack Developer

Santa Barbara, CA
(310) 251-6426
jeremy.seckinger@aol.com

EXPERIENCE

Software Engineer, Los Angeles, CA —*100 Devs*

2020 - PRESENT

▷ Full stack web application design, development, and maintenance--utilizing a range of technologies including PostgreSQL, Express, React, and Node

▷ Managing end-to-end full life-cycle software production-- writing, building, analyzing, testing and deploying software

▷ Maintaining strong technical development environment, facilitating group meetings--applying agile methodologies (Scrum & Kanban) for project management

Software Engineer, Santa Barbara, CA —*JS Designs*

2020 - PRESENT

▷ Front-end software development executing modern and clean websites utilizing front-end web technologies--HTML5, CSS3, Javascript, jQuery

▷ Focused on employing dynamic web page design utilizing current web trends and search engine optimization best practices

▷ Providing web development services to clients in Santa Barbara, the greater Los Angeles area, and across the US.

Traveler, The World — *Solo backpacking around the world*

2018 - 2020

▷ Solo traveled and worked in Australia and around the world for two years taking only a backpack--adapting to unanticipated situations and improvising new plans due to periodic travel mishaps and unexpected events

▷ Developed budgeting and planning skills by financing, organizing, and executing my trip across the globe--using spreadsheets, extensive research note taking and expense tracking

▷ Cultivated new language skills through contact with people from around the world. Learned to use non verbal communication to overcome language barriers

The Joe Lewis Company, Los Angeles, CA

Manager--Warehouse, Logistics, and Technical Operations

2016 - 2018

▷ Managed logistics for full-scale live television event productions working with clients including Disney, The Oscars, Netflix, Grammys and more--scaling our logistics and operations team to meet demand in our most critical growth phase, handling multiple live productions daily

▷ Department head of our professional in-house operations team tasked with transportation logistics, operations planning & execution, and warehousing

▷ I was the guy at headquarters making certain our crew on-site had everything they needed, brainstorming solutions to unanticipated problems, and coordinating inter-departmentally to plan and proof-read productions.
